ABOUT US

Muqem Factory for Steel Industries

Established in 2003 in the heart of Riyadh, Muqem Factory for Steel Industries has grown into one of Saudi Arabia's trusted names in high-quality steel furniture manufacturing. With a focus on strength, style, and durability, we craft products built to last - serving residential, commercial, and institutional sectors across the Kingdom.

To meet growing demand and enhance our production capabilities, we expanded in 2014 to a state-of-the-art facility in the Al Kharj Industrial Area, spanning over 10,000 square meters. This strategic move allowed us to streamline operations, scale output, and uphold the highest standards of craftsmanship.

Today, Muqem proudly delivers steel furniture solutions across all regions of Saudi Arabia, combining industrial-grade strength with modern design - and a commitment to quality that's stood strong for over two decades.
